

Help Seabirds Thrive

Fly high to protect coastal wildlife!

A minimum of 1,000 feet above ground level (AGL) is required in overflight regulation zones within California National Marine Sanctuaries. Failure to comply with this minimum altitude prohibition is presumed to disturb marine mammals and seabirds and is a violation of federal regulations.^{15 C.F.R. 922.82(a)(8)}

P I L O T S

IT'S THE LAW!

The use of aircraft to disturb or harass any bird is prohibited.
